# RELIABLE HIGH SPEED, DEDICATED ETHERNET CONNECTIVITY FOR YOUR BUSINESS

## WITH SOCONNECT

---

EFM offers its users an almost unparalleled level of connection, free from common problems such as contention or 24 hour + fix times that are common with broadband data packages. As EFM is a dedicated service it can provide a constant and consistent level of connection at speeds of up to 10 or 20Mbps (depending on the package you choose) and as your business will be the only user of the line, you will no longer have to suffer a loss in quality as a result of sharing your bandwidth with others..

## EFM IS IDEAL FOR

---

EFM is ideal for businesses that need higher capacity than broadband, but don't have the budget to invest in fibre Ethernet, providing you affordable connectivity that supports business-critical applications like VoIP and hosted solutions.

- ✓ Small and medium enterprises
- ✓ Organisations requiring a quick installation (subject to delivery time)
- ✓ Companies that want more bandwidth without the cost of full-blown Fibre Ethernet
- ✓ Businesses that want to deploy a large scale IP (VoIP) Telephony solution
- ✓ Businesses that need a faster connection for critical applications
- ✓ Organisations experiencing fibre access difficulties to their premises
- ✓ Businesses with satellite and branch offices that need resilient connections
- ✓ Companies that are looking to adopt cloud-based services

## KEY BENEFITS OF EFM

---

SoConnect offers a range of feature rich EFM leased line services specifically designed for business use.

Committed and upgradeable bandwidth speeds

Delivered in half the time of Fibre Ethernet

Inherently resilient and reliable service with 6 clock-hour fix

Fast without major investment in infrastructure or equipment.

Ideal for VoIP and Cloud Services

1:1

Uncontended 1:1 service

Dedicated symmetrical bandwidth

99% Uptime

# ETHERNET FIRST MILE (EFM) PLANS AND PRICING WITH SOCONNECT

---

EFM availability is dependent on user location and proximity to enabled exchanges. The closer you are to an enabled exchange, the more bandwidth you will receive. We can check availability in your area.

SoConnect's EFM starts from:

**EFM 10 MBS**  
**£132**  
PER MONTH

**EFM 20 MBS**  
**£159**  
PER MONTH
