HIGH SPEED, DEDICATED FIBRE ETHERNET CONNECTIVITY WITH GUARANTEED CONSISTENCY WITH SOCONNECT

Available across the UK, Fibre Leased Lines offer dedicated high speed business Internet service delivering uncontended fibre access. Backed by our industry-leading Service Level Agreement, Ethernet bandwidth can be increased quickly and easily in increments from 10MB in line with your emerging business needs. Leased Lines from SoConnect provide fast, reliable internet access to help your organisation run seamlessly. Leased Lines also deliver dedicated bandwidth to your premises, guaranteeing that the connectivity you require is always available.

ETHERNET OVER FIBRE IS IDEAL FOR

Delivered over our fully fibre optic network, Ethernet has the reliable bandwidth for high-end business grade connectivity. It supports technologies like VoIP and cloud-based services so you can access high quality voice, data and video as quickly. Plus with a choice of synchronous speeds from 10Mbps up to the full 1Gbps, Ethernet has the scalability to evolve with you as you need to.

- ✓ Medium - Large enterprises
- ✓ Organisations looking to build and extend networks and infrastructure
- ✓ Needing to move large amounts of data quickly and seamlessly
- ✓ Businesses that want to deploy a large scale IP (VoIP) telephony solution
- ✓ Businesses that need high-grade connectivity
- ✓ Expanding companies that want the option to scale services to grow with their business
- ✓ Wanting to access high quality voice, data, video and cloud based services and applications
- ✓ Relying on streaming and broadcasting services
