Why your business needs Managed IT Services

Cyber Security Focused

Risk mitigation is at the heart of what we offer. We are adept at identifying and managing potential cybersecurity risks, ensuring that threats are detected promptly. With our robust alert mechanism and actionable recommendations, **your business can address issues proactively**, safeguarding against expensive breaches.

Cost Savings

You might think it sounds expensive, but your business can significantly save on IT costs. We focus on optimising resource utilisation, automating tedious manual tasks, and offering insights into potential wastage. You can swiftly pinpoint and eradicate unnecessary costs, not to mention cutting the expenditure of an in-house IT team. The financial benefits can be substantial, **freeing up capital for your business to invest in strategic ventures**.

Pave the way for growth

As your business aspirations grow, so will your IT needs. Our IT Managed Services support this growth without a hitch. Whether integrating new hardware, onboarding novel software solutions, or scaling resources, **SoConnect is beside you at every step, ensuring seamless transitions** and an efficient IT environment.

Efficiency

We know you'll hear it all the time, but with the right IT Service, your business will experience an efficiency transformation. Our expertly crafted system streamlines processes, reduces redundancies and guarantees smoother workflows.

On a scale of one to 10, where one is terrible, and 10 is world-class, how do you rank your current IT support company?

Six signs its time to switch IT Providers

Cyber Security isn't a priority

Businesses face a cybercrime pandemic. Your IT partner must build a robust security strategy.

Poor communication

If your existing IT provider isn't in contact with you, how can they understand your business?

You don't learn anything

You have the latest technology in place but do your employees know how to use it?

Reactive instead of proactive

Is your IT provider monitoring, detecting, and resolving issues before they become a problem?

Slow response time

Long wait times will harm business productivity and negatively impact business revenue.

Growing pains

Can your provider give you the right level of support as you grow?

IT Managed Services from SoConnect is a personalised experience from the off. We'll work together to secure your business, demystify the world of IT, create efficiencies to superpower your business and get your IT working for you. That way you'll have a strategy for success, freeing up your business to grow, grow, grow!

Simple expert advice

Our team has many years of experience in IT and business. We will share our knowledge and expertise through our IT consultancy and beyond. We also understand the importance of 'jargon-free advice. That means you'll know what we need to do and trust us to deliver the results.

A strategy for success

There is little point in developing your IT infrastructure if it doesn't align with your business objectives. That's why our IT consultants only give advice on the solutions that align with your goals. Expect a personalised experience from the start as we work together to grow your business.

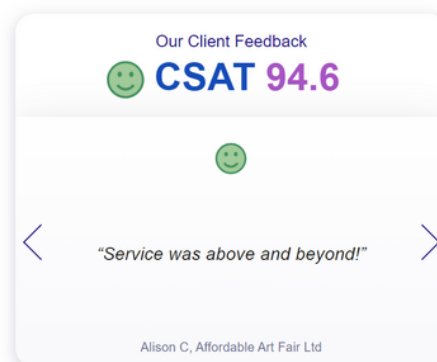

One point of contact

Our experienced and highly qualified support team provides a single point of contact for all your business IT, telecommunications and digital transformation questions. When you join us, you'll be assigned an Account Manager who is always on hand to offer free advice and guidance.

Happy Customers, Always

We know everyone says it, but we make it our business to mean it! Happy customers is truly what drives our team each and every day. We are proud to achieve customer satisfaction ratings above industry standards and beyond.
